COMPANY INFORMATION

- **REGISTERED NAME OF COMPANY** — FGE INDUSTRY SDN BHD
- **COMPANY REGISTRATION NUMBER** — 1102562-K
- **DATE OF INCORPORATION** — 23 JULY 2014
- **BUSINESS ADDRESS** — B-17-2, JALAN SERAI WANGI K/16 K, ALAM AVENUE, 40200 SHAH ALAM, SELANGOR

COMPANY INFORMATION

- **CONTACT NUMBER** +603 - 5523 0587
- **CORPORATE WEBSITE** www.fgeindurstry.com
- **REGISTRATION** MOF and CIDB G7
- **CERTIFICATES** CIDB G7 (B, CE, ME), 415V, 11kV, 33kV, MOF, FGV (G6, G7), SPAN, KTMB, ST-Elektrik, Indah Water, MAHB, MPKJ, UPM, Maxis, TM, ST-Gas

ABOUT US

Established in 2014, FGE Industry Sdn. Bhd. stands as a premier Bumiputera provider of Engineering, Procurement, Construction and Commissioning (EPCC) services and a driving force in Malaysia's infrastructure landscape.

Headquartered in Shah Alam, Selangor, the company leverages its Bumiputera status, CIDB G7 registration, and Ministry of Finance (MOF) approval to execute major, high-impact projects nationwide. While our foundation is built on deep technical expertise in electrical, mechanical, and civil engineering, our approach is defined by innovation.

We combine the experience of industry veterans with advanced technologies to deliver solutions that are not only reliable but future-ready. At FGE Industry, we do not just adapt to industry demands, we anticipate them. Committed to operational excellence and a client-first philosophy, we continue to power the nation's growth, evolving alongside Malaysia's complex energy and infrastructure needs.

VISION & MISSION

OUR OBJECTIVE IS TO PROVIDE BESPOKE SOLUTIONS

FGE Group are passionate about our work and our strength lies in working as a team to engage with our clients and deliver first class customer service and the highest standards of excellence. Our objective is to provide bespoke solutions.

F FGE VALUES

FGE Group believes in investing and innovating tailor-made solutions while embracing state-of-the-art technology to ensure our client receives the best viable options to meet their specific needs.

V OUR VISION

FGE Group aims to be a major conglomerate in property development, engineering & construction and renewable energy across Malaysia.

M FGE MISSION

Incorporates a 3R philosophy to provide Reliable, Relevant and environmentally Responsible solutions as we strongly believe in upholding our client's expectation, making client satisfaction our priority.

SAFE, HEALTH & ENVIRONMENT DEPARTMENT

FGE Industry Sdn.Bhd. is committed to providing a safe and healthy working environment for all employees, subcontractors, visitors and members of the public affected by our construction activities.

POLICY STATEMENT

- Comply with all applicable Malaysian safety and health legislation and relevant guidelines.
- Eliminate hazards where reasonably practicable and reduce OSH risks through systematic risk management.
- Provide adequate resources, training, supervision and consultation on safety and health matters.
- Apply the hierarchy of controls (elimination, substitution, engineering, administrative controls, PPE).

OSH Management

Hazard Identification, Risk Assessment and Risk Control (HIRARC)

Systematically identify hazards for all activities (e.g. excavation, lifting, hot work, work at height).

Assess risks using a standard HIRARC methodology (likelihood × severity).

Provide adequate resources, training, supervision and consultation on safety and health matters.

Continuously improve our Occupational Safety and Health (OSH) performance.This policy applies to all operations of Kara Power Engineering Sdn.Bhd on all projects and work sites.

Review HIRARC

Before new work activities

After incidents or near misses

When design, method or equipment changes

SAFETY SOP

Training and Competence

Provide OSH inductions for all new employees and subcontractors.

Provide task-specific training (e.g. scaffolding, crane lifting, confined space, electrical LOTO).

Ensure operators of plant and machinery are properly trained, licensed and, where relevant, CIDB registered / accredited.

Maintain records of attendance and competence.

Consultation and Communication

Establish a Safety and Health Committee where required by OSHA regulations

Conduct regular toolbox meetings and OSH briefings.

Communicate lessons learned from incidents to all projects

Display OSH policy and key safety rules at all sites.

WHAT WE DO

Infra Works

Horizontal Directional Drilling (HDD)

We provide advanced Horizontal Directional Drilling (HDD) services for underground utility installations without open trenching, making it ideal for urban areas, busy roads, and sensitive sites where minimal disruption is required. Our experience includes projects for Tenaga Nasional Berhad (TNB), Gas Malaysia, and other utility providers, installing high-voltage power cables, gas pipelines, water pipes, and telecommunication cables. Using modern HDD equipment and a skilled team, we deliver projects on time, to strict technical specifications, and to the highest safety and quality standards.

Pipeline Construction

With proven expertise in utility infrastructure works, we provide professional pipeline construction services for gas, water, and other utility networks across various project environments. Our scope covers pipeline installation, jointing, testing, and commissioning, executed in full compliance with technical specifications and regulatory standards. Supported by experienced personnel, proper equipment, and strict safety practices, we deliver durable, efficient, and high-quality pipeline systems within project timelines.

OpenCut from 11kV to 275kV

We provide professional opencut excavation and trenching services for underground power cable installations ranging from 11kV to 275kV, delivering reliable solutions where direct ground access is required. Our scope includes trenching works for medium- and high-voltage transmission cables, ensuring proper depth, protection, and compliance with technical specifications. With experienced personnel and modern excavation equipment, we execute projects efficiently while maintaining strict safety, quality, and timeline standards.

WHAT WE DO

Cable Pulling from 11kV to 275kV

With extensive experience in medium- and high-voltage infrastructure works, we provide specialized cable pulling services for power systems ranging from 11kV to 275kV. Utilizing proper pulling techniques and calibrated equipment, we ensure cable integrity is maintained throughout the installation process while fully complying with technical specifications and industry standards. Backed by skilled personnel and strict safety management practices, we deliver efficient, reliable, and high-quality installations within project timelines.

Mill & Pave

With solid experience in road rehabilitation works, we provide professional mill and pave services to restore and enhance pavement performance. Our scope includes asphalt milling to remove damaged surface layers followed by precision paving to achieve a smooth, durable finish. Utilizing modern machinery and skilled operators, we ensure proper surface preparation, accurate levels, and full compliance with technical and safety standards while delivering projects efficiently within schedule.

Water Reticulation

We are experienced water reticulation contractors providing reliable clean water systems for homes, businesses, and industries. Our services include sourcing and treating water, designing efficient distribution layouts, installing durable pipelines, controlling pressure, and ensuring proper building connections. We also conduct thorough testing and provide regular maintenance to keep systems running at their best. With a focus on quality, efficiency, and reliability, we ensure every project delivers safe and consistent water supply.

WHAT WE DO

Mechanical & Electrical (M&E)

We provide complete Mechanical and Electrical (M&E) solutions, covering design, installation, testing, and maintenance for a wide range of building and infrastructure projects. Our M&E capabilities support commercial, industrial, and utility sectors, ensuring systems operate safely, efficiently, and reliably. With experienced engineers and technicians, we deliver M&E solutions that comply with all relevant standards and regulations, ensuring safe operation and long-term performance.

WHAT WE DO

Solar EPCC Contractors

FGE Industry provides complete Solar EPCC (Engineering, Procurement, Construction & Commissioning) solutions for residential, commercial, and industrial projects. As a certified contractor under SEDA and MyHIJAU, we are fully qualified to design and deliver solar energy systems that are safe, efficient, and environmentally friendly. Our team manages every stage of the solar project from initial planning and system design to equipment procurement, construction, installation, and final commissioning. With a strong commitment to sustainability, we support Malaysia's green energy goals by helping clients transition smoothly to renewable power.

- BUKIT MERAH SOLAR PLANT

Each solar project begins with a preliminary study to assess the site's technical and economic feasibility. We then move into design and conceptualizing, creating a tailored solar system layout. Our project management team oversees the entire process to ensure timelines, budgets, and quality benchmarks are met. During the engineering and construction phase, we use top-quality equipment and materials to ensure long-term performance. Once installed, we carry out thorough commissioning to test functionality and efficiency. Every project is delivered with strict adherence to safety compliance, and our quality assurance and control team ensures that the final output meets all regulatory and client standards.
